

LEADING TECHNOLOGY IN

# AUTOMOTIVE SOLUTIONS

OVER 80 YEARS AS  
GLOBAL ADDITIVE SPECIALISTS

In 1939, Chestien Wynn discovered a formula he named  
"Wynn's Friction Proofing" Oil. This surface treatment for metal  
actually changed the chemistry of the metal,  
making it harder and better able to withstand friction and wear.  
That was the foundation stone of Wynn Oil Company.

---

Wynn's South Africa was subsequently founded in 1971.

---

In 2005 Wynn's became part of the Performance Polymers & Fluids  
division of Illinois Tool Works which produces an array of highly  
engineered fasteners, components, equipment, packaging, power  
systems and electronics, polymers and fluids, decorative surfaces  
and specialty products for customers around the world.

---

ITW is a Fortune 200, diversified manufacturing company  
with nearly 100 years of history.  
ITW's 850 decentralized business units in 57 countries  
employ close to 59 000 people.

### PETROL INJECTOR CLEANER - 375 ml

518 - 6001296005186

- Reduces exhaust smoke caused by incomplete fuel combustion
- Removes injector pintle deposits restoring fuel flow and optimum fuel atomisation
- Improves fuel economy and overall engine performance

Designed to dissolve high temperature petrol deposits on the injector pintle, keeping injectors clean and lubricated. Removes water from the fuel system, restores efficient fuel delivery and is safe to use with all fuel system components including high pressure direct injection, Catalytic converters and O<sub>2</sub>/lambda sensors. Use as directed every 5000 km's to maintain best performance. 375ml treats up to 70 litres Petrol.

### FUEL SYSTEM CLEANER - 375 ml

540 - 6001296005407

- Complete fuel system cleaning from tank through to combustion
- Dissolves petrol related deposits restoring efficient fuel delivery
- Improves fuel consumption and keeps fuel jets clean
- Use as solvent to clean carburettor and other engine parts

A complex blend of selected cleaning agents formulated to accumulatively clean the entire petrol fuel system removing all lacquer, gum and resin deposits associated with petrol engines.

Wynn's Fuel System Cleaner is ideal for carburettor, multi-point/ indirect injection or inlet induction systems where the air/fuel mixture leaves gum and resin deposits in the inlet manifold.

Use as directed to maintain efficient fuel delivery or decant into a container to clean engine parts.

Safe to use with catalytic converters as well as O<sub>2</sub>/lambda sensors.

375ml treats 70 litres Petrol.

#### VALVE GUARD LEAD SUBSTITUTE - 200 ml

520 - 6001296005209

- Prevents valve seat recession
- Frees sticky valves
- Lubricates upper cylinder

An emission free, environmentally friendly, lead substitute solution to protect the older vehicle when running on unleaded petrol.

Valve Guard will prevent valve seat recession, free sticky valves and lubricate the upper cylinder improving general performance.

Valve Guard is compatible with normally aspirated as well as turbo charged vehicles and will not affect catalytic converters. 200ml treats 50 litres unleaded petrol.

#### SPITFIRE - 125 ml

521 - 60065339

- Supports complete combustion
- Frees sticky piston rings
- Reduces exhaust emissions
- Maintains lambda/O2 sensor and EGR cleanliness
- Inhibits corrosion and improves fuel consumption

Promotes complete petrol combustion while cleaning carbon deposits from the upper cylinder preventing pre-ignition and engine run-on. Ideal to use in engines which are not run regularly to avoid fuel deposits and carbon build up caused by contamination and adverse effects of fuel degradation.

#### FUEL STABILISER - 125 ml

308 - 6001296003083

- Prevents fuel degradation and facilitates easy starting
- Protects against rust and corrosion
- Prevents fuel tank and filter deposits
- 125ml treats 20L petrol or diesel

Wynn's Fuel Stabiliser is a petrol & diesel fuel additive to prevent fuel from degrading when a vehicle is not in use for extended periods of time, or when stored. Ideal for recreational vehicles, generators, mowers, boats, bikes, emergency equipment classic and hybrid cars, etc.

# PETROL /01

ADDITIVES

## POWER BOOST PETROL - 325 ml

342 - 6001296003427

- Increases the octane number (RON) by up to 3 units
- Provides upper cylinder lubrication for up to 5,000km
- Increases horsepower & protects valves
- Overcomes pre-ignition, pinging or knocking in the engine
- Catalytic converter, oxygen sensor & E10 safe

Power Boost is an octane enhancing additive for high performance petrol engines with knock sensor technology. The increased octane provides significantly more power to vehicles tuned to high octane fuel.

## GENERATOR, BIKE & OUTBOARD TREATMENT - 500 ml

536 - 6001296005360

- Cleans entire fuel delivery system, combustion chamber injection carburetor components without dismantling
- Restores efficient fuel delivery while improving cylinder compression & engine response
- Reduces emissions
- Safe on catalytic converters and spark plugs

Professional fuel system and combustion chamber tune-up for motorcycle engines and outboard motors. Applicable to any petrol engine with direct fuel delivery system. Ideal for engines not in regular use which develop carbon and other fuel related deposits. Outboard motors, motor bikes, quads, lawn mowers, generators etc. Applicable to two-stroke engines with the correct % of two-stroke oil added as required.

## CATALYTIC CONVERTER & OXYGEN SENSOR CLEANER - 325 ml

534 - 6001296005346

- Ensure optimal working of the Lambda (oxygen) sensors
- Improves cleanliness and reduces emissions
- Restores engine performance
- Especially suited for city driving cycles

Wynn's Catalytic Converter & O2 Sensor Cleaner for petrol engines optimizes the efficiency of the catalytic converter and ensures the optimal working of the oxygen sensors by cleaning the active surfaces of combustion and exhaust residue. 325ml treats 30L of Petrol.

# DIESEL /02

ADDITIVES

## DIESEL TREATMENT - 375 ml

386 - 6001296003861

- Cleans injectors, turbo, EGR valve and diesel particulate filter (DPF)
- Kills micro-organisms and algae associated with diesel tank contamination
- Lubricates injector increasing efficiency and extending injector life
- Assists with water separation for complete removal of free water
- Prevents diesel freeze and filter clogging in cold temperature environment
- With Cetane Enhancer

Diesel Treatment is the complete diesel additive to maintain best performance in all conditions. Cleans injectors, reduces soot emissions and keeps EGR and DPF systems clean with Cerium Technology, Biocide kills algae and micro-organisms, flow improver prevents diesel waxing to well below freezing point. Added lubricity extends injector life and lubricates fuel pump. Assists with water separation by demulsifying the fuel and water for easy and complete removal through the water trap.

## DIESEL CLEAN BURN - 375 ml

557 - 6001296005575

- Cleans and regenerates Diesel Particulate Filter
- Prevents and cures Turbo lag by removing restricting soot and carbon deposits
- Reduces soot accumulation on the EGR valve
- Restores and maintains optimum performance of DPF, EGR and Turbo

Many new cars are fitted with emission controlling devices such as an Exhaust Gas Recirculation (EGR) system and a Diesel Particulate Filter or DPF. This device will capture up to 100% of soot particles from the exhaust, then regenerates through high temperature burning of these particles. With today's stop start driving, the DPF does not always have time to regenerate causing clogging and ultimately replacement. By adding Wynn's Clean Burn, a severely clogged DPF will regenerate in minutes restoring power. Similarly, the exhaust turbo fan accumulates large amounts of soot and unburned carbon deposits which will be burnt off through this catalytic process. Wynn's Clean Burn uses unique Cerium Oxide Technology added to the fuel, to lower the incineration temperature of soot particles to below 400 °C, maintaining a clean, trouble free DPF system, clear EGR valve to restore correct air/fuel mixture and clean both conventional and variable vane turbo fans providing immediate turbo response and optimum performance.

## INJECTOR & TURBO CLEANER - 375 ml

542 - 6001296005421

- Restores diesel spray pattern and fuel optimisation improving engine response
- Reduces black exhaust smoke caused by incomplete diesel combustion
- Removes Internal Diesel Injector Deposits (IDID)
- Removes soot from turbo eliminating turbo lag

Diesel Injector & Turbo Cleaner is specially formulated to dissolve and remove gums, resins and high temperature carbon deposits from injectors as well as reduce the temperature of soot incineration through Cerium Technology, removing all deposits on the exhaust side of the Turbo, restoring optimal performance and fuel economy.

### DIESEL TURBO CLEANER - 375 ml

547 - 6001296005476

- Frees sticky turbo vanes
- Removes carbon build up from turbine
- Good cleaning effect on the EGR valve
- Extend the life of the turbo

Wynn's Diesel Turbo Cleaner removes carbon build up from the turbine and frees sticking vanes without dismantling.

Our product removes residues from the Diesel Oxidation Catalyst and has a good cleaning effect on the EGR valve. Re-establishes engine power and throttle response. Improves combustion and reduces soot emissions.

### DIESEL POWER BOOST - 325 ml

341 - 6001296003410

- Early and continuous ignition of diesel delivers better combustion throughout the power stroke delivering greater torque and power.
- Vastly improves cold starting and low temperature performance
- Quietens diesel engine noise by reducing knock
- More complete combustion leads to better fuel economy and reduced emissions.

Wynn's Diesel Power Boost is a Cetane improving formulation which raises the Cetane number of diesel reducing ignition delay resulting in more complete and consistent diesel combustion. Meets all NCWM, EMA, and TMC definitions for Premium Diesel as per (ASTM D613). Ideal for all diesel engines to increase fuel performance in power, early ignition response (especially in cold conditions), eliminate knocking and reduce emissions.

## OIL /03

SPECIALISED CHEMICAL TREATMENTS FOR FUELS, OILS AND RADIATOR TO ADDRESS AND PREVENT ALL ASSOCIATED PROBLEMS

### ENGINE, DIFF & GEARBOX STOP LEAK - 375 ml

502 - 6001296005025

- Reduce oil burning and exhaust smoke
- Reduce unsightly leaks from camshaft and crankcase oil seals
- Ideal for use in used car preparation

This seal rejuvenator and viscosity index improver has a dual acting stop leak action. While swelling dry and hardened rubber/ neoprene seals and O-rings to stop oil leaks, the viscosity index improver prevents oil from thinning at high temperature and seeping past the rings causing blow-by smoke. Excellent for restoring valve stem seals.

### CHARGE! FOR OIL

506 - 6001296005063 - 375 ml

503 - 6001296005032 - 500 ml

- Reduces oil consumption in engines with signs of wear
- Minimises exhaust smoke by providing better piston ring sealing
- Improves oil pressure to better protect moving parts
- Provides anti-wear protection to reduce further wear

Wynn's Charge! For Oil is a high mileage oil additive for the car with some wear and tear and using oil. A viscosity index improver prevents blow-by by maintaining oil viscosity throughout the temperature range preventing oil smoke. Anti-wear agents provide extra boundary lubrication protection reducing further wear of engine parts while quietening valve train and engine noise. Use in manual gearboxes and differentials or as an assembly lube, to ensure superior wear protection and smooth operation.

### ENGINE FLUSH - 375 ml

504 - 6001296005049

- Cleans engines internally while providing anti-wear protection
- Frees sticky piston rings, hydraulic valve lifters, and variable timing systems
- Removes lacquer, varnish & sludge deposits from the crankcase
- Restores compression

Superior flushing fluid additive to be used before an oil change. Wynn's Engine Flush, is fast acting and provides extra wear protection while dissolving sludge and oil deposits with a unique anti-wear additive. Flush after just 15 minutes or continue activation for up to 200km's while you drive. Engine Flush will remove sticky deposits from the pistons rings restoring compression as well as clean out oil channels and galleries to ensure complete lubrication of all working components when oil is replaced.

# OIL /03

## ADDITIVES

### STOP SMOKE - 500 ml

507 - 6001296005070

- Reduces exhaust smoke
- Reduces oil consumption in engines with considerable wear
- Improves compression and prevents blow-by by sealing the piston rings
- Restores oil pressure

An oil additive formulated specifically to reduce exhaust emissions (typically blue or black smoke) caused by oil burning through the combustion chamber, commonly known as blow-by smoke. Stop Smoke is a highly effective Viscosity Index Improver providing superior thermal stability to the engine oil, preventing seepage past the piston rings. Suggested for high mileage or vehicles using excessive amounts of oil between service intervals. Compatible with wet clutch motorcycles and catalytic converters.

### VALVE LIFTER CONCENTRATE - 375 ml

516 - 6001296005162

- Prevents & eliminates noisy Hydraulic Valve Lifter operation
- Cleans and prevents sticky Variable Valve Timing systems
- Prevents excessive oil consumption caused by bore lacquering
- Reduces positive crankcase pressure by preventing PCV valve deposits

Technical advancements have resulted in significant engine power output and emission reduction; however, the extended service intervals can contribute to excessive contaminant build up in the hydraulic valve lifters and valve train. Wynn's Hydraulic Valve Lifter & Oil Conditioner is formulated to combat contamination throughout the oil system, cleaning the Hydraulic Valve Lifters, Valve train while offering superior anti-wear protection.

### GEAR OIL TREATMENT - 90 g

530 - 6001296005308

Wynn's Gear Oil Treatment and Assembly Lube, is a fully supplementary gear oil package scientifically formulated using the latest technology to provide all the below listed gear box, differential and wide variety of automotive and industrial equipment.

Formulated to meet international vehicle manufacturer's specifications of extreme pressure gear oils and recommended for use in limited slip differentials.

### POWER STEERING - 375 ml

532 - 6001296005322

- Eliminates Power Steering stiffness, shudder and noise
- Provides smoother operation of power assisted steering & auto-transmission gear changes
- Prevents ageing and oxidation of automatic transmission and power steering fluids
- Prevents and cures oil leaks by nourishing the rubber seals and O-rings

Wynn's Power Steering & Auto-transmission Conditioner is an oil soluble supplement developed to eliminate PAS (Power assisted Steering) stiffness, shudder and noise as well as ease shifting of automatic gearboxes. Prevents oil leaks by rejuvenating the seals while maintaining optimum performance of the PAS pump and load bearing components. Wynn's Power Steering & Auto-transmission Conditioner can be added to all conventional ATF and power steering fluids.

- Reduces gear friction & wear extending component life
- Provides oxidation & shear stability for longer oil
- Quietens diff & manual gearbox whine providing smoother gear changes
- Anti-Wear & Extreme Pressure additives provide excellent protection during engine rebuilds & component assembly

## ATF FLUSH - 325 ml

549 - 6001296005490

- Safely removes varnish deposits
- Prepares transmission or power steering for new fluid
- Cleans all internal components, prolongs component life & restores optimal operation
- Smoothen and quietens gear changes

Wynn's Automatic Transmission Fluid (ATF) Flush is an oil soluble treatment developed to clean automatic gearboxes as well as ATF-type power steering systems to restore optimal operation.

# SYSTEM TREATMENT /04

## OIL SYSTEM FLUSH - 375 ml

499 - 6001296004998

- Complete oil system flushing
- Fast acting formula
- Anti-wear additives protect moving parts
- Water emulsifier removes harmful moisture from the system

Wynn's Oil System Flush is specifically developed to meet the latest Euro spec vehicle and oil demands, performing complete oil system cleaning from the sump through to the narrow oil galleries and channels, preparing the entire system for optimal performance when the new oil is added.

# COOLANTS /05

MAINTENANCE

## CHILLY WILLY ANTIFREEZE

**510** - 6001296005100 - 1 L

**515** - 6001296005155 - 2 L

Chilly Willy is a pre-mixed high performance inorganic coolant /antifreeze package for old and modern vehicles. Made from the finest Euro spec glycols, anti-corrosion and anti-foam agents to provide superior protection. Freezing Point: -25° C (ASTM D1177) ASTM D3306/D4985; SAE J-1034; British & Fed. Standards.

## EXTREME ANTIFREEZE SUMMER COOLANT - 1 L

**514** - 6001296005148

Wynn's Coolant/ Antifreeze is a concentrate designed to meet old and modern vehicle requirements made from the finest Euro spec glycols, anti-corrosion and anti-foam agents to provide superior protection. Freezing Point at 40% dilution -25° C (ASTM D1177) Wynn's Coolant/Antifreeze meets ASTM D3306/ D4985; SAE J-1034; British & Fed. Standards.

## SUMMER/WINTER COOLANT AND ANTIFREEZE - 1 L

**362** - 6001296003625

Wynn's Summer & Winter 20% Antifreeze/Coolant is a premium ready-to-use, high-performance coolant and antifreeze. It is a complete replacement package making it suitable for all vehicles – those that require either organic or inorganic coolants. It is formulated with a superior Euro specification additive package that promotes optimal performance in both light and heavy-duty engine applications.

## EXTENDED LIFE COOLANT / ANTIFREEZE - 1 L

**360** - 66001296003601

Wynn's Extended Life Coolant is a premium ready to use (Type D) Organic Acid Technology Coolant and Antifreeze which provides superior protection for modern vehicles. Freezing Point -25° C (ASTM D1177) Specification meets with the below manufactures: VW TL 774 D (G-12);RV1/RNUR 41-01-001 D Type; FORD WSS- M97B44-D; VOLVO 260; MERCEDES DC 325.3; MAN 324 SNF; MTU; PSA

# RADIATORS /06 MAINTENANCE

## RADIATOR STOP LEAK - 375 ml

513 - 6001296005131

- Effect emergency repairs to prevent loss of coolant
- Enables extended trips to be completed without costly repairs or time wasted
- Will stop head gasket seepage preventing oil/water mixing
- Simply removed by draining when maintenance needs to be carried out.

Wynn's Radiator Stop Leak is a unique blend of non-ferrous fibres and surface active agents which combine to plug hairline cracks and pinholes associated with cavitation pitting and corrosion. It will not cause any blockage of the radiator core or cooling matrix, nor will it harm any cooling system components. Radiator Stop Leak is compatible with all Ethylene Glycol and OAT coolants as well as Aluminium and rubber hose safe. It is recommended that Wynn's Radiator Stop Leak is carried in recovery vehicles as an essential emergency repair item.

## RADIATOR FLUSH - 375 ml

511 - 6001296005117

- Dissolves and loosens scale and rust build-up from radiator and cooling jacket
- Restores heat transfer to effect correct operating temperature
- Removes oil ingress from head gasket or oil cooler damage

Restoring effective heat transfer and maintaining the correct operating temperature is essential to the longevity and efficient running of an engine. Wynn's Radiator Flush will remove scale, rust and silicate fallout which restricts cooling. It will also remove oil ingress caused by cylinder head gasket or oil cooler failure and is compatible with all coolant types, conventional EG as well as organic coolants. Aluminium and rubber hose safe.

### CARB CLEANER

538 - 6001296005384 - 200 ml

387 - 6001296003878 - 285 g

539 - 6001296005391 - 500 ml

- Cleans without dismantling
- Rapidly dissolves gums, resins & tar deposits
- Restores smooth idling & efficient fuel delivery

Wynn's Carb Cleaner is a powerful solvent which enables you to clean the carburetors without dismantling. Simply spray it into the float chamber vent to clean the inside and down the throat for rapid results. Spray onto the outside to clean the exterior.

### THROTTLE BODY & AIR INTAKE CLEANER - 285 g

533 - 6001296005339

- Removes sticky air intake build up
- Restores correct airflow to improve air/fuel mixture
- Cleans contaminated EGR & idle speed valves
- Restores smooth idling & throttle response

Wynn's Throttle Body and Air Intake Cleaner will remove sticky residue, caused by oil mist crankcase fumes, from air intake system components as well as petrol residues, gums and resins. These tar like deposits build up on the idle speed control and butterfly valves leading to irregular airflow and erratic idling. Formulated for modern petrol vehicles, will not remove protective surface coatings and is O2/ Lambda sensor safe.

### CARBON BUSTER - 285 g

306 - 6001296003069

- Cleans Combustion Chambers removing carbon deposits
- Cleans and unblocks Turbo compressor
- Cleans Exhaust Gas Recirculation (EGR) valve & Intake manifold
- Cleans Diesel Particulate Filter (DPF) and parts

Wynn's Carbon Buster is a multi-functional carbon and deposit remover. Restoring compression when used to de-carbon chambers as well as piston ring deposits. The activated foam de-carbons hard to reach engine parts, restoring performance and functionality by dissolving carbon, gum, lacquer, tar and varnish deposits.

### ENGINE START

**525** - 6001296005254 - 375 ml

**527** - 6001296005278 - 200 ml

- Fast acting starting solution
- 2 stroke engine safe
- Contains friction proofing
- For petrol or diesel engines

Wynn's Engine Start is the easy solution to starting problems. Avoids wear of the starter motor and prevents battery drain. Engine start assists with cold weather starting, flooded engines and helps restore fuel pump pressure after a vehicle has run dry. Unlike many starting fluids, Wynn's Engine Start can be used in 4 stroke and 2 stroke engines as it contains a friction proofing lubricant. For petrol and diesel engines.

### BRIGHT SPARK - 200 ml

**388** - 6001296003885

- Fast and convenient cleaning action
- Quick drying formula removes moisture
- Inhibits corrosion
- Extension tube facilitates easy spot cleaning in hard to reach areas

Wynn's Bright Spark is an intelligent electrical circuit and contact cleaner. Spray directly onto surfaces to be cleaned to restore good electrical contact. It will remove all dirt, flux and oily residue as well as remove moisture. Ideal for sensitive electronics, printed circuits, switches and electrical panels. Safe to use on most plastics, rubber and metal.

### BRAKE & PARTS CLEANER - 500 ml

**526** - 6001296005261

- Cleans brake residue instantly
- Removes oil, grease and fluid deposits
- Safe to use on all ABS braking systems

Wynn's Brake & Parts Cleaner instantly removes brake residues and deposits such as brake fluid, oil, grease and brake dust without polluting the environment. Use before every brake service to ensure clean re-application of callipers and pads. The strong solvent action is also ideal for cleaning parts as well as CV joints before new grease is applied.

### ENGINE CLEANER & DEGREASER - 500 ml

431 - 6001296004318

- Solvent based
- Heavy duty
- Cleans toughest grease
- Can be used with high pressure sprayer

Wynn's Engine Cleaner & Degreaser is a solvent based degreaser for heavy duty cleaning of engine parts and exterior. It lifts dirt, grime and oil off bikes, chains, quads, etc.

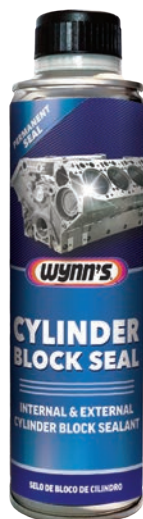

### BATTERY WATER - 1 L

405 - 6001296004059

- Demineralized
- Distilled
- High Purity

Wynn's Battery Water is the purest and most effective medium for efficient electron transfer in lead batteries, it has been distilled and de-mineralised by reverse osmosis to promotes extended battery life

**CYLINDER BLOCK SEAL** - 325 ml

**494** - 6001296004943

- Forms a glass hard layer when exposed to air
- Repairs cracks in cylinder blocks of cast iron, steel and aluminium, without dismantling
- Stop small leaks/cracks in metal head gaskets
- Assures a permanent repair in 30 minutes
- Resists high pressures, water pressure and vibration
- Does not repair rubber gaskets

Wynn's Cylinder Block Seal is the powerful, revolutionary product which repairs internal and external cylinder block cracks in record time. Wynn's formulation has been specifically designed to treat hairline cracks in cylinder walls to large cracks in the cylinder block without the need to dismantle your vehicles' precious components

**STOP SQUEAK** - 200 ml

**408** - 6001296004080

- Rejuvenates hardened and noisy bushings
- Reduces friction between load carrying parts
- Excellent water resistant properties

Superior lubrication specifically designed to eliminate squeaks and groans associated with suspension systems. Wynn's Stop Squeak is a silicone based lubricant with elastomer rejuvenating additives as well as PTFE solids for load carrying and lasting friction reduction. Suitable for all rubber and polyurethane bushings as well as shackles or any contact surface in relative motion requiring smooth, quiet operation. Control arm and sway bushings, shackles, rear leaf spring bushings, rubber mountings as well as door hinges and related mechanisms.

**RID RAT** - 200 ml

**700** - 6001296007005

- Rodent deterrent
- Independently tested & validated
- Contains natural oil extracts

Wynn's Rid Rat is a blend of concentrated botanical extracts to naturally deter rodents from the area of application. It contains natural essential oils which make it safe for use on plastic and rubber components. Wynn's Rid Rat is suitable for automotive and household use, both in and outdoors.

### NUMBER FIVE SPRAY

414 - 6001296004141 - 375 ml

413 - 6001296004134 - 200 ml

- Silicone free multi-purpose lubricant
- Rust penetrant
- Dissolves and cleans tar, grease and sticker residue
- Protects against corrosion
- Repels Water

A multi-purpose penetrating lubricant for chains, hinges, locks, castors, fishing reels, tools etc. Excellent rust penetrating properties when used as a de-gripping agent.

### WYNFLON - 200 ml

416 - 6001296004165

- Penetrating oil containing PTFE (Polytetrafluoroethylene) solids
- Clean, dry lubricant
- Water repellent
- Residue free

Superior PTFE lubrication with high load carrying properties. Ideal for garage worm gears, bike chains, fishing reels, gun mechanisms, gym equipment and micro gears. Wynflon is a clean lubricant which flashes off the surface leaving dry solids to lubricate.

### SILICONE LUBRICANT - 200 ml

420 - 6001296004202

- Penetrating silicone lubricant
- Water repellent
- No oily residue
- Prevents corrosion

A multi-purpose silicone based spray, ideal for everyday household and elastomer lubrication such as door hinges, sticky locks, drawers, curtain rails and especially effective on rubber, plastic & nylon sliders.

MULTI-PURPOSE AS WELL AS SPECIALISED LUBRICANTS  
FOR SPECIFIC REQUIREMENTS

**CHAIN LUBE** - 375 ml

**346** - 6001296003465

- Reduces friction and wear

- Performs through wide temperature range

- Resistant to dirt, water and corrosion

- Oil consistency

A strongly adhesive, water repellent, penetrating lubricant for bike quad and other chain mechanisms. Non conductive.

**CHAIN WAX** - 375 ml

**418** - 6001296004189

- Reduces friction and wear

- Performs through wide temperature range

- Resistant to dirt, water and corrosion

- Wax consistency

A specially formulated non-fling chain lubricant for high velocity chains. Non conductive.

**WHITE LITHIUM GREASE** - 250 ml

**580** - 6001296005803

- Resistant to water

- Prevents corrosion

- Temperature range from -15°C to 120°C

- Excellent metal retention

White Lithium-based grease aerosol lubricant sprays on like a fluid, then congeals to a grease for prolonged lubrication intervals. Effective lubrication and protection for automotive, domestic and light duty applications, including battery terminals, locks, hinges, latches etc.

# CAR CARE /10

PREMIUM EXTERIOR

## NANO CERAMIC COATING - 500 ml

484 6001296004844

- Provides a hydrophobic barrier
- Long lasting European specification
- Ensures UV protection

Wynn's Nano Ceramic Coating is a liquid sealant formulated to protect vehicles paint work from the harsh environmental conditions. This product provides long lasting weather protection in a simple, DIY application. The hydrophobic barrier helps prevent dust pick up even after multiple detergent washes thanks to the latest siloxane technology.

## CERAMIC WATERLESS CAR WASH & RAIN REPELLENT - 500 ml

483- 6001296004837

- Contains ceramic components
- Provides a hydrophobic barrier
- Scratch-free application
- Water saver

Wynn's Waterless Car Wash & Rain Repellent is a spray on, wipe off car wash designed to clean your car while giving it a protective water repelling coating. Formulated using Silicon Dioxide (SiO<sub>2</sub>) technology to fill voids of pre-existing imperfections for a greater finish. This highly lubricated formula makes cleaning easy and prevents scratches.

OUR PREMIUM EXTERIOR RANGE FOR PAINTWORK  
BURNISHING, POLISHING, SHAMPOO AND SEALING.

#### HIGH FOAMING CERAMIC WASH & WAX - 1 L

482- 6001296004820

- Provides a durable layer of protection
- Ceramic SiO<sub>2</sub> technology
- Scratch-free application

Wynn's High Foaming Ceramic Wash & Wax gently cleans, protects and enhances shine. Formulated with ceramic SiO<sub>2</sub> nano chemistry that ensures a durable, hydrophobic layer of protection against UV and other contaminants, while producing superior gloss. It is safe for use on pre-coated vehicles with its scratch-free application.

Feel the difference.

#### HIGH FOAMING CONCENTRATE - 1 L

481- 6001296004813

- High-gloss finish
- Safe on coated surfaces
- Biodegradable

Wynn's Foaming Car Wash Concentrate visibly reduces spots and streaks for a high gloss finish. This high-foaming formula is concentrated for greater cleaning action. It safely lifts dirt, grime and residues leaving your vehicle with a brilliant finish.

Formulated for all vehicle surfaces, including waxed and coated surfaces.

### BLACK BACK - 200 ml

434 - 6001296004349

- Covers grey faded areas instantly
- Long lasting
- Spreads evenly and consistently

Wynn's Black Back brings back the black on faded bumpers, grills, spoilers, louvers, dashboards, tyres and other black trim.

### DETAIL POLYMER SEALANT - 500 ml

439 - 6 001296004394

- Dual acting polymer sealant with Carnuba wax for added protection
- Removes swirl marks and minor scratches
- Lasts up to one year

Wynn's Polywax combines the benefits of polymerised silicone paint sealant with Carnuba wax. It is mildly abrasive to assist in polishing out swirl marks and minor scratches. The Polymer sealant will last one year before re-application.

COMPREHENSIVE EXTERIOR RANGE FOR PAINTWORK  
BURNISHING, POLISHING, SHAMPOO AND SEALING AS WELL  
AS TYRE, TRIM AND WINDSHIELD TREATMENTS.

#### MAG WHEEL CLEANER - 500 ml

**352** - 6001296003526

- Highly effective formulation
- Quick acting
- Easy spray and rinse application

Wynn's Mag Wheel Cleaner is a highly effective cleaning formulation in an easy to use trigger container. Simply spray on and hose off. In stubborn cases a light brush can be used to remove dirt before rinsing.

#### TYRE & TRIM SHINE - 500 ml

**397** - 6001296003977

- Tough exterior cleaner and protector for tyres, bumpers, rubbers and trim
- UV protector
- Anti-static formula

Wynn's Tyre & Trim Shine is a silicone cleaner, protector and beautifier for all exterior plastics, vinyl, rubbers and tyres. Applies easily leaving exterior trim looking like new while protecting from UV. The special anti-static formula prevents dust and dirt from accumulating on treated surfaces keeping them cleaner for longer.

#### TYRE TREAT - 400 ml

**433** - 6001296004332

- No pre-cleaning required
- Actuated foam removes dirt in one application
- Tyres shine effortlessly when lightly wiped with cloth

Wynn's Tyre Treat is a foam cleaner which acts immediately by simply spraying the actuated foam onto the tyre. For enhanced appearance, wipe the tyre before it is dry.

# CAR CARE /10

EXTERIOR

## SCRATCH REMOVER - 100 ml

356 - 6001296003564

- Removes scratches and scuffs from paintwork, bumpers and headlights
- Multi-action abrasive process leaves highly polished finish
- Convenient tube prevents dirt ingress and contamination

Wynn's Scratch Remover is an abrasive polishing paste with micro particles which remove scratches and scuff marks commonly associated with everyday knocks and bumps. Large angular particles abrade and break down while small smoother particles leave a polished finish.

## REVIVE - 375 ml

441 - 6001296004417

- Abrasive polish to restore faded paintwork
- Removes stubborn dirt and scratches
- Not recommended for metallic finishes

Wynn's Revive paintwork renewer, is a burnishing compound with abrasive particles which remove faded, discoloured paint and scratches. Revive removes years of grime and oxidation in minutes.

## AUTOGLÂZÉ - 250 ml

436 - 6001296004363

- High quality finish
- Non-abrasive
- Applies easily without leaving powder residue

Wynn's Autoglaze is a premium non-abrasive cream polish for all paint finishes including high end metallic and clear coat paintwork.

### D MIST - 250 ml

427 - 6001296004271

- Prevents interior fogging
- Enhanced/improved vision
- European specification

Wynn's D Mist improves driving visibility by eliminating interior fogging. Simply apply the treatment to interior glass and mirrors and benefit from improved visibility.

### C THRU - 250 ml

422 - 6001296004226

- Windshield rain repellent
- Hydrophobic, water-beading technology
- Improves wet weather driving

Wynn's C Thru is a truly remarkable innovative rain dispersant product for windscreens and windows. Rain is dispersed so effectively, you do not need to use wipers at all even in the heaviest of down pours. Applies easily with a clean cloth and lasts an entire rainy season.

### WINDSCREEN WASH - 200 ml

358 - 6001296003588

- Removes dirt and bug remains
- Lubricates wiper blades reducing shudder
- Anti-streak formulation leaves windscreen clear

Wynn's Windscreen Wash is a concentrated detergent additive for the windscreen water reservoir to remove stubborn dirt and insect residue from the windshield. 200ml treats 5L water.

### CHAMOIS

490 - 6001296004905

Wynn's Chamois are super thick, extra absorbent and tear resistant. Recommended for best results on paintwork, windows and bright work to remove moisture and leave surfaces clean and streak free.

- Super thick
- Extra absorbent
- Durable

### LEATHER CARE CRÈME

**452** - 6001296004523 - 375 ml

**1452** - 6001296014522 - 2 L

- For all leather articles
- Cleans and nourishes
- UV protection

Wynn's Leather Care Crème treats and protects leather and vinyl seats, jackets, lounge suites or any leather item requiring superior nourishment and care. It contains unique ingredients such as lanolin, jojoba oil, silicones, softeners, cleaning agents and a UV protector. Leather Care Crème will not stain clothing and will care for the finest leather.

### DASH AEROSOL

**463 Lavender** - 6001296004639 - 250 ml

**464 Leather** - 6001296004646 - 250 ml

- Treats and cleans vinyl, plastic and rubber surfaces
- UV protection
- Anti-static
- Lavender and leather fragrances

Wynn's Dash for vinyl and rubber, treats and protects the dashboard, plastic bumpers, trim, matt surfaces and trunk rubbers. Dash will remove polish traces from plastic and rubber trims and is available in two fragrant aerosol variants, a soft lavender and authentic leather.

### DASH SPRAY

**445** - 6001296004455 - 500 ml

**444** - 6001296004448 - 250 ml

- Treats and cleans vinyl, plastic and rubber surfaces
- UV Protection
- Anti-static
- 250ml and 500ml bottle with spray nozzle

Wynn's Dash for vinyl and rubber, treats and protects the dashboard, plastic bumpers, trim, matt surfaces and trunk rubbers. Dash will remove polish traces from plastic and rubber trims. Available in two sizes, 250ml and 500ml.

## INTERIOR

### SCREEN & DASHBOARD CLEANER

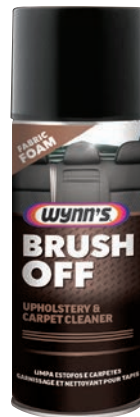

**473** - 6001296004738 - 225 ml

**475** - 6001296004752 - 100 ml

- Safe on LED, LCD and plasma screens
- Streak-free application
- Anti-static formulation

Wynn's Screen & Dashboard Cleaner was specifically developed for dashboards including LED, LCD and Plasma screens. It is also suitable for cell phones, tablets and laptops. With its advanced formulation, it allows for cleaning of most sensitive surfaces of new generation vehicles. Ideal for screens and interior plastic surfaces.

Wynn's Screen & Dashboard Cleaner (225 ml) is sold with a microfiber cloth to facilitate soft and delicate application.

### BRUSH OFF - 375 ml

**451** - 6001296004516

- Dry activated foam
- Clean car and household upholstery, carpet and fabrics
- Lifts dirt for easy removal

Wynn's Brush Off is a dry foam cleaner for all fabric and velour upholstery in the car and at home. The activated foam assists in lifting dirt to the surface for ease of removal. Ideal for carpets, roof linings, seats etc.

### FRESH

**467 Apple** - 6001296004677 - 250 ml

**465 Musk** - 6001296004653 - 250 ml

**466 Cherry** - 6001296004660 - 250 ml

- Extra-long lasting fragrance
- Protects and beautifies dashboard, plastics, rubber and vinyl
- Anti-static
- Three popular fragrances: Musk, Cherry and Green Apple

Wynn's Fresh is an extra-long lasting deodorant air freshener which will fight odours while protecting and beautifying vinyl, rubber, dashboards, tyres, exterior trim and matt finishes. Fresh has a unique fresh scent and is available in three popular fragrances, Musk, Cherry and Green Apple.

# TYRE FIX /12

REPAIR

## TYRE FIX

472 - 6001296004721 - 500 ml

469 - 6001296004691 - 340 ml

## DON'T GET CAUGHT FLAT

Wynn's Tyre Fix is an easy to use **emergency tyre repair aerosol** with **generic valve connector**. Simply follow the step-by-step instructions to re-inflate and seal a puncture within minutes.

### KEY BENEFITS

- Repairs puncture by sealing the hole **from the inside**
- Re-inflates tyre to **enable immediate driving**
- Easy to use - **no removal of wheel** required
- Quick, convenient and safe

- **Inflates tyre without removing the wheel**
- **Seals puncture on the spot**
- **Safe, fast and easy to use**

### DIRECTIONS FOR USE

1. Move tyre valve to just before or after the highest point
2. Remove object causing leak
3. Deflate tyre completely
4. Shake container well
5. Connect end of the connector to the tyre valve
6. Inflate to pressure

# CLEANING /13

CLEEN GREEN CLEANS & REMOVES HOUSEHOLD, AUTOMOTIVE AND GENERAL GREASE AND GRIME.

## WYNN'S CLEEN GREEN PENETRATES & LIFTS -

Penetrates and lifts oil, grease and stains, cleans stubborn dirt and grime in the household and workshop including kitchens, ovens, laundry stains, showers, toilets, work surfaces garages, tools, bikes, car under bonnet, braai's and other tough cleaning jobs.

# AIRCON TREATMENT /14

## AIRCON TREATMENT - 200 ml

412 - 6001296004127

- Quick easy application
- Removes odours & harmful bacteria
- Leaves pleasant scent after treatment
- Fresh fragrance

Wynn's Aircon Treatment will effectively neutralise unpleasant odours that are emitted from air conditioning systems. Mould and fungi that occur in the moist enclosed ducting of the air conditioning system can cause allergies and unpleasant odours. Wynn's Aircon Treatment is the easy and convenient way to remove these problems in minutes leaving the vehicle with a pleasant scent.

## FRESH AIR ULTRASONIC - 100 ml

443 - 6001296004431

- Nebulized molecules pass through micro and pollen filters
- Eliminates all harmful micro-organisms
- 15 minute treatment

Wynn's Fresh Air Ultrasonic® is a neutral water based solution that eliminates the growth medium of micro-organisms. It removes greasy deposits, dust and other contamination from the air conditioning's evaporator. The surfactants used are biodegradable and the efficiency of the product against bacteria and fungi has been tested to completely eliminate harmful micro-organisms associated with air-conditioner systems.

# ADHESIVES /15

HIGH PERFORMANCE ANAEROBIC, SUPER GLUE, EPOXY, CONTACT AND SENSOR SAFE GASKET MAKERS.

## SENSOR SAFE RTV

**655 Black** - 6001296006558 - 90 ml

**657 Silver** - 6001296006572 - 90 ml

**658 Red** - 6001296006589 - 90 ml

Wynn's Sensor Safe, High-Temp RTV is a one-component, room temperature vulcanizing gasketing compound with features of high stability and durability. Specifically designed to provide reliable formed-in-place gaskets for mechanical assemblies that withstand operating environments up to 343°C and resistant to engine oils, fuel and anti-freeze. This product is extensively used in bonding and sealing applications on automobile engines such as joint cover of tappet cover, intake exhaust manifolds, timing chain cover, oil sump, transmission pan, and household electrical appliances.

## 5 MIN STEEL EPOXY - 16 ml

**651** - 6001296006510

Wynn's Steel Epoxy is a two-component, low odour, fast curing adhesive formulated to bond an extensive range of substrates including steel, brass, copper, iron, plastic, wood, concrete and ceramics. Applied in single action, this product cures with high bonding strength, resistance to high temperature, pressure and grease. Suitable for use to repair worn valve seats, cracked housings, copper and cylinder heads, gas tank, plumbing and radiator leaks, torn keyways, stripped threads, toys and furniture.

## NUT LOCK & STUD LOCK

**653** - 6001296006534 - 7 g

**654** - 6001296006541 - 7 g

**620** - 6001296006206 - 50 ml

**621** - 6001296006213 - 50 ml

Wynn's Nut Lock & Stud Lock are solvent free products that cure in the absence of air and in the presence of metal ions. Applications includes studs, nuts, screws and any threaded fasteners. The adhesive prevents loosening caused by vibration, mechanical and thermal shock. Resistant to petrol, diesel, transmission fluid, anti freeze, and other chemicals. Wynn's Nut Lock and Stud Lock also inhibit fretting corrosion and prevent seizure and galling. Nut Lock is a medium strength bond which requires 20Nm torque to loosen. Stud Lock has high bond strength for more permanent locking and requires 36Nm torque to loosen.

## 5 MIN SUPER EPOXY - 16 ml

**652** - 6001296006527

Wynn's Super Epoxy is a two-component, low viscosity, fast curing adhesive formulated to bond an extensive range of substrates including metal, ceramic, rigid plastic and wood. Applied in single action, this product cures with excellent adhesion and is extensively used in applications such as metal toys, automobile plastic panels, fuel tanks, bumpers, mirrors, electrical appliances and industrial oil tanks, transformers and radiators.

## SUPER GLUE - 3 g

**601** - 6001296006015

Wynn's Super Glue is a quick drying, high strength cyanoacrylate adhesive available on a display card containing 12 x 3g tubes. The extended non-clogging nozzle allows for accurate and precision gluing.

## CONTACT ADHESIVE

**632** - 6001296006329 - 50 ml

**631** - 6001296006312 - 100 ml

Wynn's Contact Adhesive is premium quality Benzene / Toluene-free, polychloroprene (Neoprene) based contact adhesive with features of high immediate bonding strength and resistance to heat and water. This product has excellent performance in an extensive range of applications including upholstery, light construction, tile flooring, shoe repair, handicrafts, leather work, decorative and DIY projects.

# MISCELLANEOUS /16

## GRINDING PASTE - 85 g

587 - 6001296005872

- Dual grit size package
- Provides lubrication while grinding
- Professional results in multiple application

Wynn's Grinding Paste is water based abrasive paste solution for asperity removal from metal surfaces. It is a dual package containing fine and coarse grit for professional results. Can be used to seat new valves, sharpen blades, remove score marks, lapping, tool making etc.

## HAMMER FORGED EXHAUST SEALANT - 200 g

862 - 6001296008620

- Easy to mould into shape
- Seals exhaust joints gas tight
- Assists ease of fitment when joining an exhaust

Wynn's Hammer Forged Exhaust Sealant moulds easily around exhaust joints to form a perfect seal. It is heat and vibration resistant and assists fitment by lubricating the flange before setting.

# ENVIROPURGE

**BEFORE**

CLEANS DIRTY VALVES

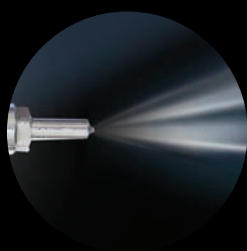

**AFTER**

## DIESEL SYSTEM PURGE - 1 L

**711** - 6001296007111

- Operates without disassembly of fuel system components
- Easy to connect and easy handling
- Completely closed tank, avoids escaping of cleaning liquid vapours
- Can be connected to all diesel injection systems (pre-chamber and direct injection, common rail or injection-pump unit)
- Suitable for passenger cars and trucks, marine or stationary engines
- For exclusive use with Wynn's Diesel System Purge

**BEFORE**

RESTORES SPRAY PATTERN

**AFTER**

## PETROL INJECTOR SYSTEM PURGE - 1 L

**710** - 6001296007104

- Operates without disassembly of fuel system components
- Easy to connect and easy handling
- Fluid delivery can be adjusted to the degree of fouling and engine displacement
- Completely closed tank, avoids escaping of cleaning liquid vapours
- Air Dump Valve as safety against over-pressuring
- Can be connected to all petrol injection systems (carburettor, K-, KE-, L-, LE-, LH-, Monojetronic, Motronic, Renix, direct injection, etc.)
- Suitable for passenger cars and trucks, marine and stationary engines
- For exclusive use with Wynn's Injection System Purge
