TECHNICAL DATA SHEET

Aircon Treatment

Wynn's Aircon Treatment will effectively neutralise unpleasant odours that are emitted from air conditioning systems. Mould and fungi that occur in the moist enclosed ducting of the air conditioning system can cause allergies and unpleasant odours. Wynn's Aircon Treatment is the easy and convenient way to remove these problems in minutes leaving the vehicle with a pleasant scent.

Key Benefits

- Quick easy application
- Removes odours and harmful bacteria
- Leaves pleasant scent after treatment

Directions for use:

- 1 Start car
- 2 Close all windows
- 3 Place Aircon Treatment in passenger side foot well
- 4 Select air conditioner, heat and circulate
- 5 Set fan on medium
- 6 Activate Aircon treatment and close the doors
- 7 Allow to spray until can is empty
- 8 Circulate air in vehicle for 10 min
- 9 Open doors and windows
- 10 Set air from circulate to outside intake
- 11 Ventilate for 10 min before driving

Warning: If the car has an auto-lock system, make sure that you have a spare key available when closing the doors for the treatment

Aircon Treatment...continued

Pack sizes.
12 x 200ml

Physical Specifications:

Odour: *Soft mint*
Appearance: *Liquid in aerosol*

Health and Safety Data.

Material Safety Data Sheets are available from the company

Shelf Life.

Whilst Wynn's products are formulated to have as long a shelf life as possible, other factors do influence their actual useful life. Handling and storage conditions can cause packaging deterioration which could render the product unfit for further use. From time to time products are superseded by upgraded products and/or changed formulations and older products will no longer have the same performance level or be compatible with latest technology being introduced into equipment. It is therefore the responsibility of the purchaser of the product to ensure proper storage conditions, stock rotation and timely usage to prevent products from becoming unsuitable for use.

Expiry date: 2 Years from manufacture date.
