TECHNICAL DATA SHEET

Wynflon Superior Lubricant

Wynflon Superior Lubricant is an aerosol penetrating lube containing PTFE (Polytetrafluoroethylene) technology to penetrate, clean, displace moisture and prevent corrosion.

Wynflon can be used in multiple applications where superior lubrication is required.

Key Benefits

- PTFE reduces friction while withstanding high loads and pressure
- Propellant flashes off leaving 'dry' solids to lubricate
- No residue
- Clean lubricant
- Repels water

Applications

- Use on chains, garage door worm gear, gun mechanisms, fishing reels, gym equipment even micro gears on clocks, cameras etc.

Directions for use:

Shake well
Spray where lubrication or protection is required and allow to penetrate.

Wynflon Superior Lubricant...continued

Pack sizes.
12 x 200ml

Physical Specifications:

Odour: *fragrant*
Appearance: *Liquid in aerosol*

Health and Safety Data.

Material Safety Data Sheets are available from the company

Shelf Life.

Whilst Wynn's products are formulated to have as long a shelf life as possible, other factors do influence their actual useful life. Handling and storage conditions can cause packaging deterioration which could render the product unfit for further use.

From time to time products are superseded by upgraded products and/or changed formulations and older products will no longer have the same performance level or be compatible with latest technology being introduced into equipment.

It is therefore the responsibility of the purchaser of the product to ensure proper storage conditions, stock rotation and timely usage to prevent products from becoming unsuitable for use.

Expiry date: 3 Years from manufacture date.
