TECHNICAL DATA SHEET

Wynn's Charge for Oil

Wynn's Charge for Oil is a high mileage oil additive for the car with some wear and tear and using oil. The viscosity index improver prevents blow-by by maintaining oil viscosity throughout the temperature range preventing oil smoke. Anti-wear agents provide extra boundary lubrication protection reducing further wear of engine parts while quietening valve train and engine noise. Can also be used in manual gearboxes and differentials or as an assembly lube, to ensure superior oil film strength and smooth operation.

Key Benefits

- Reduces oil consumption in engines with signs of wear
- Minimises exhaust smoke by providing better piston ring sealing
- Improves oil pressure to better protect moving parts
- Provides protection to reduce further wear
- Restores compression

Applications

- High mileage vehicles
- Cars using oil
- Assembly lube
- Quietens manual gearbox and diff
- Use at 5% for motor bikes with wet clutch

Directions for use:

- Add to warm oil to facilitate mixing
- 375ml treats 3-4 Litres of oil

Wynn's Charge for Oil...continued

Pack sizes.
12 x 375ml

Physical Specifications:

Odour: *Characteristic*
Appearance: *Viscous Ambar oil*

Health and Safety Data.

Material Safety Data Sheets are available from the company

Shelf Life.

Whilst Wynn's products are formulated to have as long a shelf life as possible, other factors do influence their actual useful life. Handling and storage conditions can cause packaging deterioration which could render the product unfit for further use.

From time to time products are superseded by upgraded products and/or changed formulations and older products will no longer have the same performance level or be compatible with latest technology being introduced into equipment.

It is therefore the responsibility of the purchaser of the product to ensure proper storage conditions, stock rotation and timely usage to prevent products from becoming unsuitable for use.

Expiry date: 3 Years from manufacture date.
