TECHNICAL DATA SHEET

Wynn's Stop Smoke

Wynn's Stop Smoke is an extra heavy duty and highly efficient viscosity index improver which provides thermal stability to the engine oil for the car with significant wear and tear and burning oil. Stop Smoke is formulated specifically to reduce exhaust emissions in both petrol and diesel engines caused by oil seepage past the piston compression rings, also referred to as blow-by smoke.

Key Benefits

- Reduces oil consumption in engines with significant engine wear
- Minimises exhaust smoke by providing better piston ring sealing
- Improves oil pressure to better protect moving parts
- Provides protection to reduce further wear
- Restores compression

Applications

- High mileage vehicles
- Cars using oil
- Use at 5% for motor bikes with wet clutch

Directions for use:

- Add to warm oil to facilitate mixing
- 500ml treats 5 Litres of oil
- For best results flush the crankcase oil with Wynn's Oil System Flush, change filter, then add Stop Smoke to the new oil.

Wynn's Stop Smoke...continued

Pack sizes.
12 x 500ml

Physical Specifications:

Odour: *Characteristic*
Appearance: *Viscous red oil*

Health and Safety Data.

Material Safety Data Sheets are available from the company

Shelf Life.

Whilst Wynn's products are formulated to have as long a shelf life as possible, other factors do influence their actual useful life. Handling and storage conditions can cause packaging deterioration which could render the product unfit for further use.

From time to time products are superseded by upgraded products and/or changed formulations and older products will no longer have the same performance level or be compatible with latest technology being introduced into equipment.

It is therefore the responsibility of the purchaser of the product to ensure proper storage conditions, stock rotation and timely usage to prevent products from becoming unsuitable for use.

Expiry date: 3 Years from manufacture date.
