# TECHNICAL DATA SHEET

## Wynn's Radiator Stop Leak

Wynn's Radiator Stop Leak is a unique blend of non-ferrous fibres and surface active agents which combine to plug hairline cracks and pinholes up to 0.7mm which are associated with cavitation pitting and corrosion. It will not cause any blockage of the radiator core or cooling matrix, nor will it harm any cooling system components. Radiator Stop Leak is compatible with all SCA and OAT coolants as well as Aluminium and rubber hose safe. It is recommended that Wynn's Radiator Stop Leak is carried in recovery vehicles as an essential emergency repair item.

### Key Benefits

- Effect emergency repairs to prevent loss of coolant
- Enables extended trips to be completed without costly repairs or time wasted
- Will stop head gasket seepage preventing oil/water mixing
- Simply removed by draining when maintenance needs to be carried out.

### Applications

- Corrosion or pinhole leak in radiator
- Head gasket seepage
- Radiator pressure loss

### Directions for use:

- Shake bottle well
- Idle engine with heater on until operating temperature is reached
- Add entire contents to radiator
- Ensure radiator cap is firmly replaced
- For best results, flush radiator first and add Stop Leak to the new coolant

## Wynn's Radiator Stop Leak...continued

**Pack sizes.**  
12 x 375ml

### Physical Specifications:

**Odour:** *Characteristic*  
**Appearance:** *Cloudy Liquid*

### Health and Safety Data.

Material Safety Data Sheets are available from the company

### Shelf Life.

Whilst Wynn's products are formulated to have as long a shelf life as possible, other factors do influence their actual useful life. Handling and storage conditions can cause packaging deterioration which could render the product unfit for further use.

From time to time products are superseded by upgraded products and/or changed formulations and older products will no longer have the same performance level or be compatible with latest technology being introduced into equipment.

It is therefore the responsibility of the purchaser of the product to ensure proper storage conditions, stock rotation and timely usage to prevent products from becoming unsuitable for use.

**Expiry date:** 3 Years from manufacture date.
