TECHNICAL DATA SHEET

Wynn's Hydraulic Valve Lifter Concentrate

Technical advancements have resulted in significant engine power output and emission reduction; however, the extended service intervals can contribute to excessive contaminant build up in the Hydraulic Valve lifters and valve train. **Wynn's Hydraulic Valve Lifter Concentrate** is an engine oil additive formulated to combat contamination throughout the oil system, cleaning the Hydraulic Valve Lifters, Valve train and hydraulic systems of gummy deposits while offering superior anti-wear protection.

Key Benefits

- Prevents & eliminates noisy Hydraulic Valve Lifter operation.
- Cleans and prevents sticky Variable Valve Timing systems
- Prevents excessive oil consumption caused by bore lacquering
- Reduces positive crankcase pressure by preventing PCV valve deposits

Applications

- Valve lifter noise (ticking) especially when cold
- After oil change to prevent deposits and fouling of hydraulic systems

Directions for use:

- Add Wynn's Hydraulic Valve Lifter Concentrate to crankcase oil
- Leave in the oil until next service
- For best result add to new oil after flushing with Wynn's Oil System Flush
- 375ml treats 4- 6 Litres of oil

Shelf Life.

Whilst Wynn's products are formulated to have as long a shelf life as possible, other factors do influence their actual useful life. Handling and storage conditions can cause packaging deterioration which could render the product unfit for further use.

From time to time products are superseded by upgraded products and/or changed formulations and older products will no longer have the same performance level or be compatible with latest technology being introduced into equipment.

It is therefore the responsibility of the purchaser of the product to ensure proper storage conditions, stock rotation and timely usage to prevent products from becoming unsuitable for use.

Expiry date: 3 Years from manufacture date.
