# TECHNICAL DATA SHEET

## Wynn's Injector Cleaner for Petrol 375ml

Wynn's Injector Cleaner dissolves high temperature petrol deposits on the injector tip as well as valves keeping them clean while providing lubrication. Safe to use with all fuel system components including high pressure direct injection, catalytic converters and Lambda /O2 sensors.

### Key Benefits

- Strong solvent action removes injector deposits
- Restores spray pattern for efficient fuel delivery and atomization to facilitate complete combustion
- Reduces exhaust smoke caused by incomplete fuel combustion
- Removes water from fuel

### Applications

- For petrol injection engines to maintain and clean injectors as well as entire fuel system.
- Rough idling
- Slow acceleration response
- Poor fuel economy

### Directions for use:

- Add entire bottle to petrol tank
- Use every 5000km or as required
- Treats up to 70L of petrol

### Pack sizes.

12 x 375ml

### Physical Specifications:

Physical State – Liquid  
Density @20° C - 0.810Kg/dm<sup>3</sup>  
Colour - Blue  
Flash point - 13° C  
Odour - Characteristic

### Health and Safety Data.

Material Safety Data Sheets are available from the company

### Shelf Life.

Whilst Wynn's products are formulated to have as long a shelf life as possible, other factors do influence their actual useful life. Handling and storage conditions can cause packaging deterioration which could render the product unfit for further use. From time to time products are superseded by upgraded products and/or changed formulations and older products will no longer have the same performance level or be compatible with latest technology being introduced into equipment. It is therefore the responsibility of the purchaser of the product to ensure proper storage conditions, stock rotation and timely usage to prevent products from becoming unsuitable for use.

**Expiry date:** 3 Years from manufacture date.
