## Wynn's Spitfire

Wynn's Spitfire is a petrol fuel additive which cleans the upper cylinder from carbon deposits by promoting complete combustion.  
Removes carbon hot spot deposits from the combustion chamber reducing knock, pre-ignition and engine run-on. Ideal to use in engines prone to carbon deposits or which are not run regularly.  
Avoids carbon build up caused by incomplete combustion and adverse effects of fuel degradation.

### Key Benefits

- Maintains upper cylinder cleanliness
- Promotes complete combustion
- Prevents spark plug fouling
- Removes carbon hot spots and fuel deposits

### Applications

- Petrol engines to maintain clean combustion chamber
- Vehicles and motor bikes, especially if not in regular use
- Outboard motors and two stroke engines
- Mowers, chain saws, weed eaters prone to plug fouling

### Directions for use:

- Add to petrol when filling up
- 125ml treats up to 50 Litres of petrol

### Shelf Life.

Whilst Wynn's products are formulated to have as long a shelf life as possible, other factors do influence their actual useful life. Handling and storage conditions can cause packaging deterioration which could render the product unfit for further use.

From time to time products are superseded by upgraded products and/or changed formulations and older products will no longer have the same performance level or be compatible with latest technology being introduced into equipment.

It is therefore the responsibility of the purchaser of the product to ensure proper storage conditions, stock rotation and timely usage to prevent products from becoming unsuitable for use.

**Expiry date:** 3 Years from manufacture date.
