## Wynn's Power Steering and ATF Conditioner

Wynn's Power Steering & Auto-transmission Conditioner is an oil soluble supplement developed to eliminate PAS (Power assisted Steering) stiffness, shudder and noise as well as ease shifting of automatic gearboxes.

Prevents oil leaks by rejuvenating the seals while maintaining optimum performance of the Auto-transmission hydraulics, PAS pump and load bearing components.

Wynn's Power Steering & Auto-transmission Conditioner can be added to all conventional ATF and power steering fluids

### Key Benefits

- Rejuvenates hydraulic seals
- Eliminates power steering stiffness, shudder and noise
- Provides smoother operation of power assisted steering as well as auto-transmission gear changes
- Prevents ageing and oxidation of automatic transmission and power steering fluids
- Prevents and cures oil leaks by nourishing the rubber seals and O-rings

### Applications

- Noisy, shuddering or leaking hydraulic power steering system
- Hardened or shrunken hydraulic seals
- Sticky hydraulic gear selection in auto transmission

### Directions for use:

- Add contents to power steering then work the steering to full lock, both left & right
- For auto-transmission, add to the ATF and drive through all gears until changes are smooth
- Allow a few days operation for the seals to fully rejuvenate

## Wynn's Power Steering and ATF Conditioner...continued

Pack sizes.  
12 x 375ml

### Physical Specifications:

Odour: *Characteristic*  
Appearance: *Clear liquid*

### Health and Safety Data.

Material Safety Data Sheets are available from the company

### Shelf Life.

Whilst Wynn's products are formulated to have as long a shelf life as possible, other factors do influence their actual useful life. Handling and storage conditions can cause packaging deterioration which could render the product unfit for further use. From time to time products are superseded by upgraded products and/or changed formulations and older products will no longer have the same performance level or be compatible with latest technology being introduced into equipment. It is therefore the responsibility of the purchaser of the product to ensure proper storage conditions, stock rotation and timely usage to prevent products from becoming unsuitable for use.

Expiry date: 3 Years from manufacture date.
