DIESEL INJECTOR AND TURBO CLEANER

Introduction.

Wynn's Diesel Injector and Turbo Cleaner is a diesel fuel treatment which increases engine performance, by removing gums, resins and carbon deposits from injector and turbo components, reducing turbo lag as well as black smoke while restoring efficient fuel delivery.

Benefits.

- Restores injector spray pattern.
- Removes carbon and soot particles from turbo.
- Reduces exhaust smoke emissions.
- Has a cleaning effect on the outlet side of the turbo.

Advantages to the user.

- Reduces diesel knocking and black exhaust smoke.

Directions for use.

- Add 375ml at least every 5000 km's or as required.
- Treats up to 70 litres of fuel.

Packsizes.

375ml 12 x 375ml

Physical Specifications.

Odour	: Characteristic
Appearance	: Liquid
Specific gravity @ 20°C	: 0.8170
Flash point (PMCC) °C	: 71

Health and Safety Data.

Material Safety Data Sheets are available from the company

Shelf Life.

Whilst Wynn's products are formulated to have as long a shelf life as possible, other factors do influence their actual useful life. Handling and storage conditions can cause packaging deterioration which could render the product unfit for further use. From time to time products are superseded by upgraded products and/or changed formulations and older products will no longer have the same performance level or be compatible with latest technology being introduced into equipment. It is therefore the responsibility of the purchaser of the product to ensure proper storage conditions, stock rotation and timely usage to prevent products from becoming unsuitable for use.

Expiry date: 2 Years from manufacture date.
