TECHNICAL DATA SHEET

Wynn's Dry Fuel

Description

Wynn's DRY FUEL is a product suitable for diesel and petrol engines developed to absorb water in the fuel system.

Fuel is hygroscopic by nature meaning it attracts water from the atmosphere causing corrosion, micro-organism growth and poor engine operation. Dry Fuel emulsifies the free water into a stable fuel solution allowing it to be burned through combustion and out the exhaust as vapour without damage to the engine.

Key Benefits

- Absorbs water from the fuel tank.
- Cleans fuel injectors.
- Protects against rust and corrosion.
- Prevents carburettor and fuel filter icing.
- Provides a better cold start performance.
- Improves fuel economy.
- Restores lost power.
- Can be used and is 100 % active in biofuels, pure (B100) or diluted in diesel fuel (B02, B05, B30)

Applications

- Recommended for all petrol and diesel engines with or without turbocharger.

Directions for use:

- Add entire contents of one bottle of 375ml to a full tank of fuel
- For best results use every 6 months.
- Wynn's Dry Fuel is suitable for diesel and petrol engines and does not contain components which harm catalytic converters or Oxygen sensors.

TECHNICAL DATA SHEET

Wynn's Dry Fuel...continued

Pack sizes.

12 x 375ml

Physical Specifications:

Odour: *Characteristic*

Appearance: *Green liquid*

Health and Safety Data.

Material Safety Data Sheets are available from the company

Shelf Life.

Whilst Wynn's products are formulated to have as long a shelf life as possible, other factors do influence their actual useful life. Handling and storage conditions can cause packaging deterioration which could render the product unfit for further use.

From time to time products are superseded by upgraded products and/or changed formulations and older products will no longer have the same performance level or be compatible with latest technology being introduced into equipment.

It is therefore the responsibility of the purchaser of the product to ensure proper storage conditions, stock rotation and timely usage to prevent products from becoming unsuitable for use.

Expiry date: 3 Years from manufacture date.
