Injection System Purge for petrol engines

Wynn's Injection System Purge is a cleaning product to remove dirt and deposits from petrol injection systems and to clean inlet valves and ports without disassembly.

Properties

- ✓ Cleans injectors, valves, valve stems, combustion chamber and other vital parts in fouled petrol injection systems without dismantling.
- ✓ Restores injector spray pattern.
- ✓ Improves the cylinder compression ratio balance.
- ✓ Frees sticking exhaust valves.
- ✓ Restores the injection time to its original value.
- ✓ Restores good engine operation.
- ✓ Reduces CO and HC values in the exhaust gases in accordance with required standards.
- ✓ Safe for spark plugs and catalytic converters.

Applications

- ✓ Can be used on all fuel systems of petrol engines with carburettor, continuous, multipoint, mono-point, direct injection (GDI, FSI, ...).
- ✓ Recommended treatment every 20.000 to 30.000 km or when experiencing problems of poor running, rough idling or excessive exhaust emissions.

Technical data

Appearance : clear liquid
 Density at 15°C : ca. 0,8100 kg/dm³
 Flash Point : < 0°C
