TECHNICAL DATA SHEET

Wynn's Diesel Injector & Turbo Cleaner for Fleets

Wynn's Diesel Injector and Turbo Cleaner is a diesel fuel treatment which increases engine performance, by removing gums, resins and carbon deposits from injector and turbo components, reducing turbo lag as well as black smoke while restoring efficient fuel delivery. Contains a catalyst to reduce combustion and exhaust soot.

Benefits

- Restores injector spray pattern.
- Removes carbon and soot particles from turbo.
- Reduces exhaust smoke emissions.
- Has a cleaning effect on the outlet side of the turbo.

Advantages to the user.

Reduces diesel knocking, improves acceleration and performance as well as eliminates black exhaust smoke

Directions for use.

- Add 500ml at least every 5000 km`s or as required.
- Treats up to 250 liters of diesel fuel.

TECHNICAL DATA SHEET

Wynn's Diesel Injector & Turbo for Fleets...continued

Pack sizes.
12 x 500ml

Physical Specifications:

Appearance : Clear light yellow liquid
Density at 20°C : 0.8170 kg/dm³
Flash Point : 71 °C
Odour : Characteristic Hydrocarbon-like

Health and Safety Data.

Material Safety Data Sheets are available from the company

Shelf Life.

Whilst Wynn's products are formulated to have as long a shelf life as possible, other factors do influence their actual useful life. Handling and storage conditions can cause packaging deterioration which could render the product unfit for further use.

From time to time products are superseded by upgraded products and/or changed formulations and older products will no longer have the same performance level or be compatible with latest technology being introduced into equipment.

It is therefore the responsibility of the purchaser of the product to ensure proper storage conditions, stock rotation and timely usage to prevent products from becoming unsuitable for use.

Expiry date: 3 Years from manufacture date.
